

Telephone Distribution Box – 30 Pair and 50 Pair

Product Introduction:

Techlogiks 30 Pair and 50 Pair Telephone Distribution Boxes are versatile plastic box designed to contain various back mount frames and mountings for ancillary components.

The base has generous provision for fixing of cable tie anchors, jumper rings, earth posts and connector mountings.

The cover gives an internal clearance of 70mm and will accept a 30mm deep back mount frame (BMF) fitted with connector strips.

The cover is secured by large head quick release screws and has removable side and end panels. All panels have breakout sections for cable entry.

The 30 Pair and 50 Pair Telephone Distribution Boxes can be used singly or in multiple configurations when the bases are fitted together and the appropriate side or end panels removed.
